Jenny Buck & Neighbors

Re: Noise Complaint

Dear neighbors,

Justin McNabb, Manager of Karma Cooperative has passed your letter on to the Board of Directors, informing us about the noise you are experiencing from the roof top refrigeration equipment.

As the Building Committee Liaison Officer to the Board, the building committee is looking at options to reduce the level of noise from these units.

It is hoped that an adequate sound buffer solution can be designed to meet sound and structural requirements.

On behalf of Karma Cooperative I apologize for any inconvenience this is causing.

Respectfully,

Arthur Jacobs
Building Liaison Committee Officer to the Board
Karma Cooperative Inc.
